MODEL PMB-1E ECONOMY FILLER

Economical and Easy-to-Use!

The PMB-1E is an entry level scale that can weigh 1 oz. to 5 lbs. of free flowing products like whole bean and ground coffee, small nuts, rice, grains, spices, small candies, teas, bath salts and similar products.

The PMB-1E is dependable and features many benefits:

- No change parts needed when filling from 1 oz to 5 lbs.
- Air compressor standard, allowing for single button start-up.
- The load cell (the most important instrument on the scale) is sensitive, yet durable. It is encased to protect against dust and water damage and has 800% overload protection.
- All stainless steel contact parts.
- Accuracy is from 0 to .01 lbs over.
- Weigh bucket easily disconnects for cleaning.
- All controls are made from off-the-shelf parts for easy maintenance and local service worldwide.
- Touch pad indicator delivers optimum weighing control with easy-to-use weight settings and feed rate controls.

WEIGHTS and FILLS PER MINUTE

1 oz to 4 oz	20 fpm
8 oz to 1 lb.	15 fpm
2 lbs. to 3 lbs.	10 fpm
3 lbs. to 5 lbs.	6 fpm

Rates are estimated. Final results determined by product density and flow characteristics. We invite you to send samples for free testing and results.
