iQ-1E *Self Adjusting ENTRY LEVEL SCALE*

The iQ-1E offers the combination of robust design, self-adjusting controls and a smartly designed touch screen interface, providing you ease-of-use and dependability to package your products day-in and day-out. Here are a sample of the many features that come with the iQ-1E touch screen interface:

- Self Adjusting controls allowing the scale to optimize speed and accuracy.
- 50 job memory storage allowing for quick recall of product settings.
- Batch counting so you can stop the scale after a set amount of packages.
- Set-up in lbs., oz, grams, kilo grams or by piece count (utilizing weigh count technology)
- Auto Zero tares the weigh bucket after a set number of cycles to account for product build-up.
- Auto dump cycle keeping the operator on their toes or to interface with automated equipment.

APPLICATIONS

The iQ-1E is an entry level scale that can weigh free flowing products like whole bean and ground coffee, small nuts, rice, seeds, spices, small candies, teas, vitamins, pet food, cat litter, popcorn, plastic pieces, and similar products. Weigh-Count controls are available to display the number of pieces instead of the weight using the average pice weight based on a sample set.

WEIGHTS and FILLS PER MINUTE*

1 oz to 4 oz	20 fpm
8 oz to 1 lb.	15 fpm
2 lbs. to 3 lbs.	10 fpm
3 lbs. to 10 lbs.**	4- 6 fpm

*Rates are estimated. Final results determined by product density and flow characteristics. We invite you to send samples for free testing and results.

**Weigh Bucket is 600 cubic inches, product density determines maximum fill per dump.

OPTIONS

Support stand - Swivel / locking casters - Supply hopper vibrator - Attachable custom spout - Adjustable container shelf - Hopper extension (offers total of 5.3 cu. ft) - Flap gate - All stainless steel washdown model.

- Supply Hopper
- Feeder Tray
- Dump Cylinder
- Air Compressor *not shown in photo*
- Weigh Bucket
- Discharge hopper
- 4" opening *Attachable spouts for bags or jars optional*
- Adjustable bag shelf *(optional)*
- Support Stand *(optional)*
- Casters *(optional)*
- Control Box
