

Weighing In

A newsletter from Weigh Right

Filling a Major and Minor Ingredient into a Tray.

For customers who need to fill trays with a Major and Minor ingredient at 40 trays per minute, Weigh Right offers our PMB-4 Scales with our HC-20 tray indexing conveyor.

A recent customer required a packaging line to put 1 lb. of IQF protein into a tray and add IQF vegetable on top. We provided them our PMB-4 USDA Scales with a our HC-20' tray indexing conveyor to fill up to 40 trays per minute (10 x 4 cycles), [click here to view the video.](#)
