

Weighing In

A newsletter from Weigh Right

Bulk Packaging granulated products into Bag-n-Box Cases!

Looking for an accurate and efficient way to package bulk granulated products into cases? Weigh Right offers our iQ-3602-HD scale for bulk filling and our HC-10 conveyor for automatic indexing of the cases.

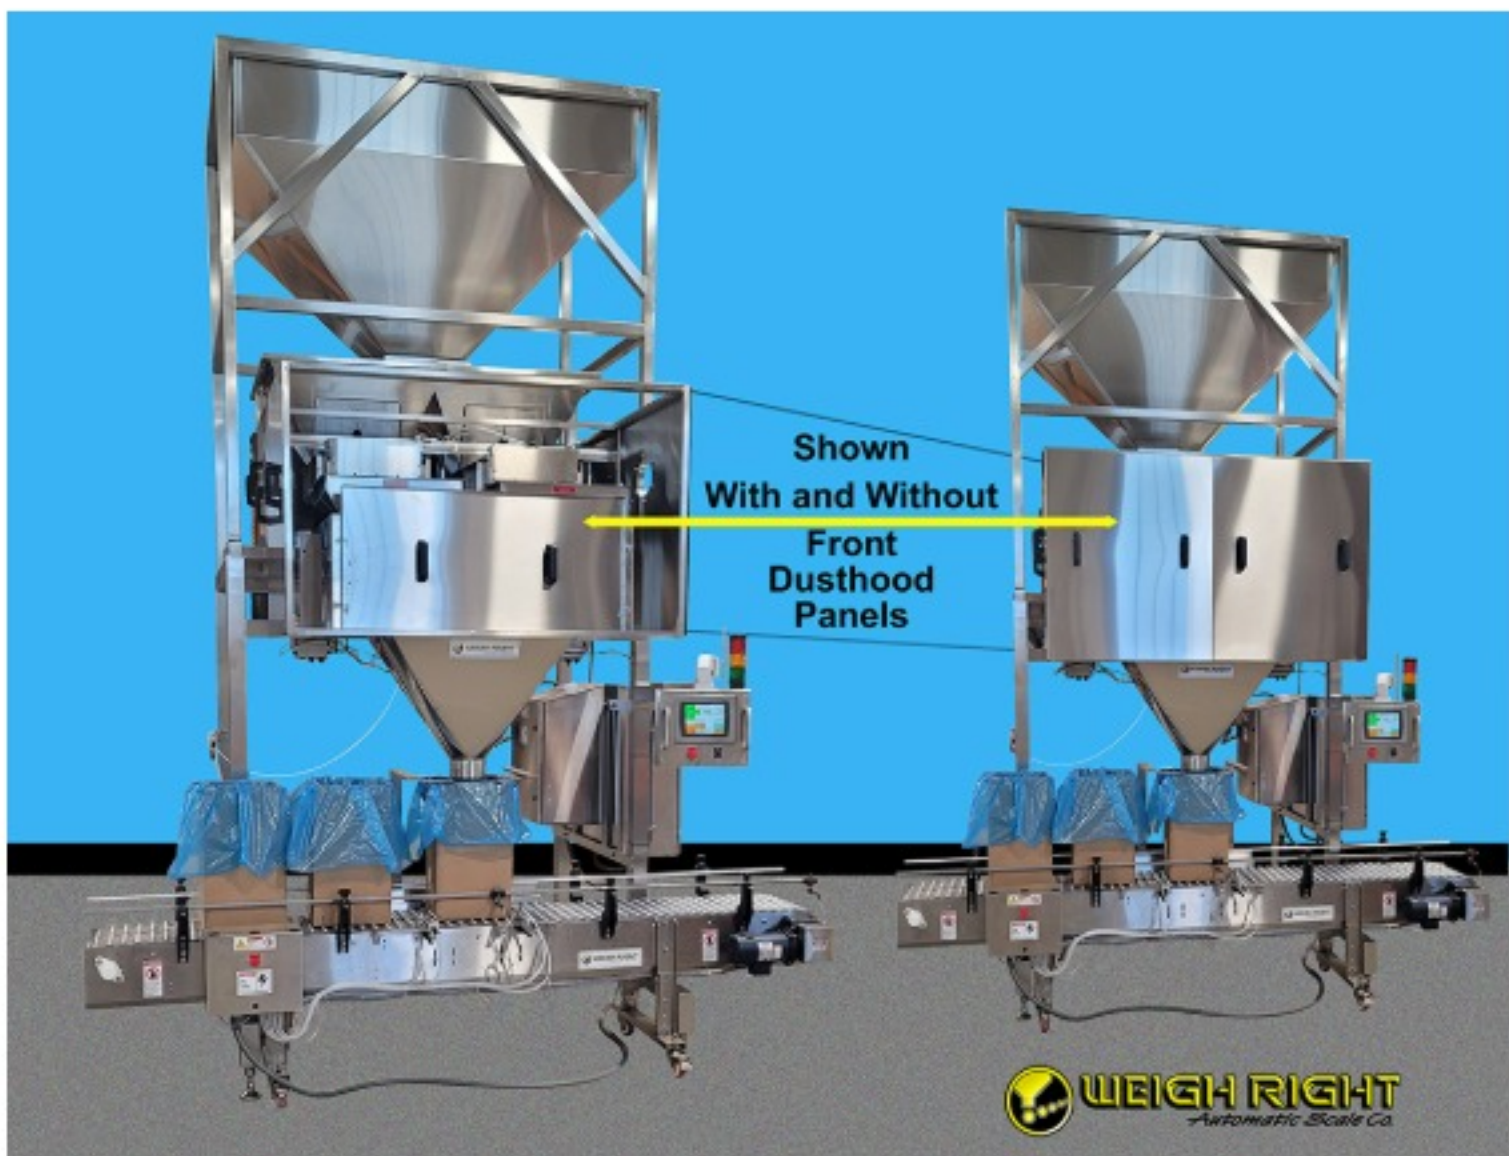

The iQ-3602-HD will accurately fill cartons from 5 lbs. to 50 lbs. and offers available options:

- Allen Bradley Controls
- Underbelt vibration to settle contents
- Bag-Hold-Down-Clamp to keep bags from being sucked into the carton as product is discharged into it.
- All stainless steel washdown models
- Multi-Panel dust hood to help contain dust
- and many more...

With decades of experience in bulk packaging, Weigh Right can help improve accuracy, reduce product giveaway, and increase production efficiency.
